

medication chart

This chart may help you to record which anti-epileptic drugs (AEDs) you take each day for your epilepsy. It can be useful to remember the names of your AEDs (some AEDs have 2 names - a brand or trade name and a generic name), how often you take them, and what dose you take.

You could also include any other medication you take for other reasons.

Your name		Date/...../.....
------------------	--	-------------	-------------------

		When do I take it each day?					
Drug/name	What is the medication for? (for example, for your epilepsy or another condition)	Dose 1		Dose 2		Dose 3	
		time	amount	time	amount	time	amount
